Warranty

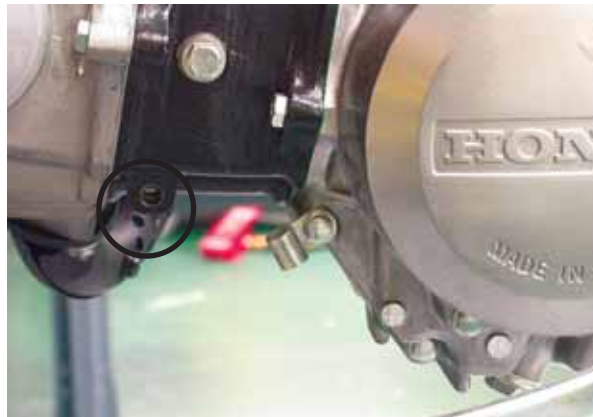

Warranty
 Two Brothers Racing products are intended for closed course competition purposes only, and therefore are sold "as is" without warranty. Two Brothers Racing specifically disclaims any warranties of merchantability or fitness for a particular purpose and disclaims all responsibility for consequential and incidental damages or any other losses arising from the use of these products or parts.

Installation Instructions

1 Remove all four bolts that hold the footpeg bracket and let it hang down.

2 Install the glide plate onto the 6mm threaded cylinder tabs in either side of the cylinder using the supplied 6x20mm screws. *Only tighten the screws finger tight at this time.*

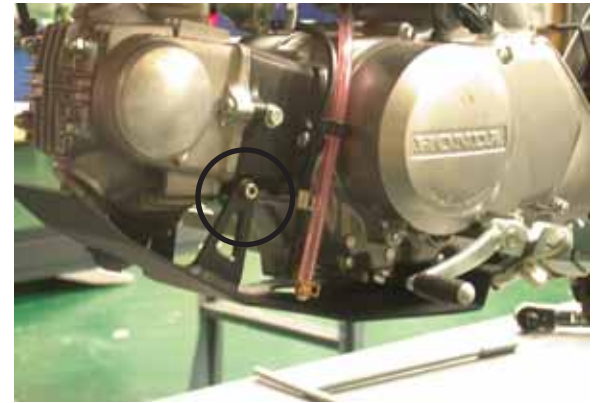

Left side

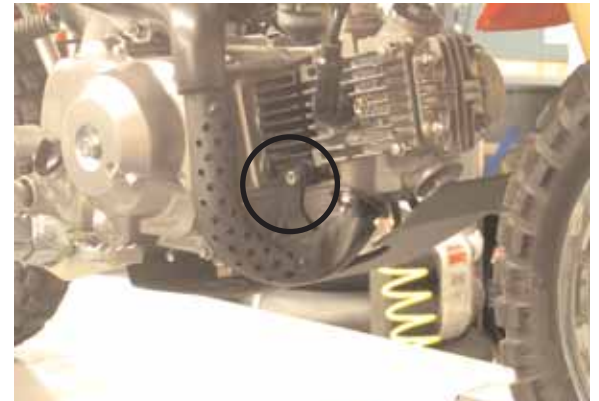

3 Press the glide plate up flush against the bottom of the engine case.

4 Install the foot peg bracket over the skid plate using all four of the stock bolts. *Only tighten the bolts finger tight.* You may need to gently push the glide plate to the left or right to align the four bolts

5 Tighten the 2 6x20mm screws to 8 ft. lb.

Left side

Right side

6 Tighten the 4 foot peg bracket bolts in a criss-cross pattern to 19 ft. lb.

7 Check your work and your done

8 Re-check all fasteners after the first ride.
